WHAT IS MY MISSION IN LIFE?

MISSION
Mission in life = The specific task or purpose a person lives to accomplish. Every person needs a mission in life. That's a fundamental human need.

Questions to Consider:
- Would you agree that every person needs a mission in life? Why?
- What is the result of having no mission in life?
- What do most people want in life? How does that relate to one's mission in life?
- How does one's anchor in life affect their mission in life?
- What would you say most people have set as their mission in life?
- What facets of life does one's mission in life affect?
- What is your mission in life?

The question that we should ask and answer is: What does God say our mission in life should be?

Biblical passages to consider:
- Isaiah 43:6-7
- Habakkuk 3:18
- Matthew 25:31-40, 28:18-20
- Luke 6:35-36
- John 14:15, 15:1-5, 17:1-5
- Philippians 3:8-12
- Colossians 1:28
- Titus 2:11-13

One's Mission in Life should:
1. Be centered around the Father and the Son, specifically naming the Son as He and salvation in Him is the BIG story God has been writing all throughout history.
2. Factor in what believers will get to do for all eternity.
3. Be broad enough to cover the whole counsel of God's Word.
4. Be able to easily be turned into a question to evaluate your life by.
5. Be short enough to remember and say.
6. Be written down and put in a visible place

*A recommendation - Assuming you are part of a Bible believing Gospel preaching Church, you might be able to simply adopt your church's mission statement. An example: The mission of First Baptist Church of Strongsville is "To enjoy God and make the name of Jesus famous for all the right reasons." So this mission statement would be taken and adopted; set as your mission statement in life.

Question to Consider:
- How does aligning your life with what God says our mission in life should be, affect every part of your life?
